

Blackboard Fall 2017 Term Course Preparation

**May 5, 2017 through
Student Access Dates (outlined below)**

May 5 - August 18

Faculty gain access to course shells and can begin to prepare Fall 2017 courses.

There are two options for course creation:

1. Copy previously taught course content
2. Develop new course content

The UTHSC Template is a great starting point and meets general quality standards in Overall Course Design, Learner Support, and Usability.

Students are populated into Fall 2017 courses.

Banner automatically adds and drops students. After August 18, the registrar will notify the TLC of any drops.

**Students gain access to Fall 2017 courses.
Faculty can change this date, if needed.**

Academic Calendar 1: June 25th • Academic Calendar 2: July 25th

Dentistry

June 29

D2, D3, D4, BSDH, MDH

July 18

D1

Medicine
