

Adaptive Release - Basics: Membership

Adaptive Release gives instructors the opportunity to display specific content to individuals or groups in the class based on criteria set. Once the rule is created, each student has to meet the specific criteria before they are allowed to access the content.

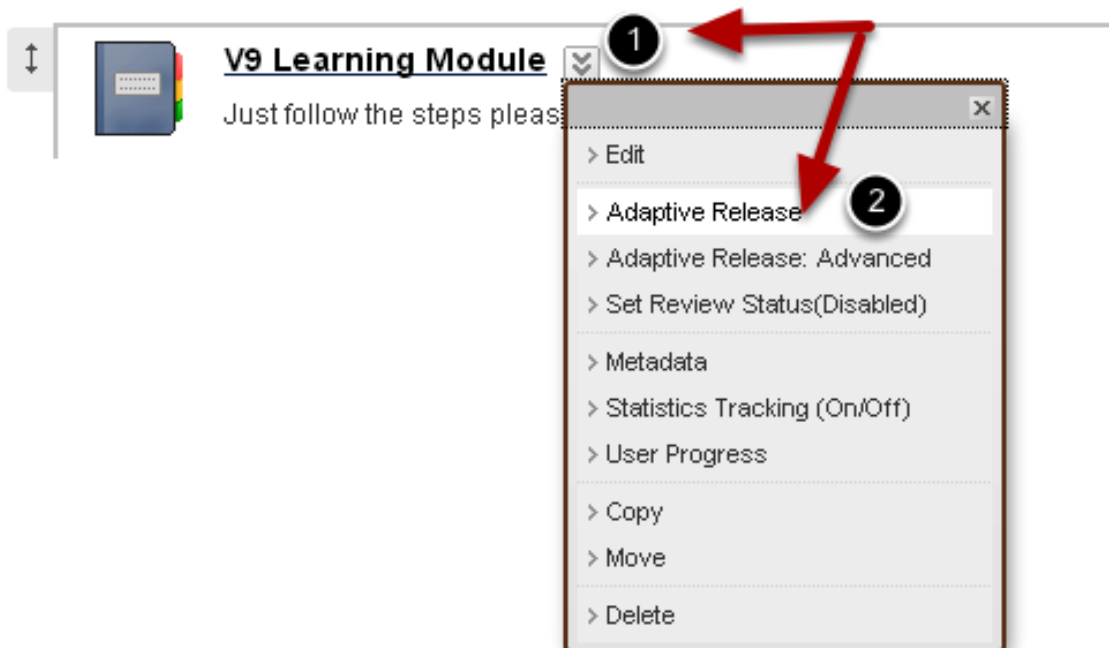

Adaptive Release can be used to limit an item's availability to certain students.

Enable Edit Mode

First make sure that **Edit Mode** is **ON**.

Find Item Where You Wish to Use Adaptive Release

1. Click on that item's **Action Link** button .
2. Then, choose **Adaptive Release**.
