

Adding Material To A Learning Module

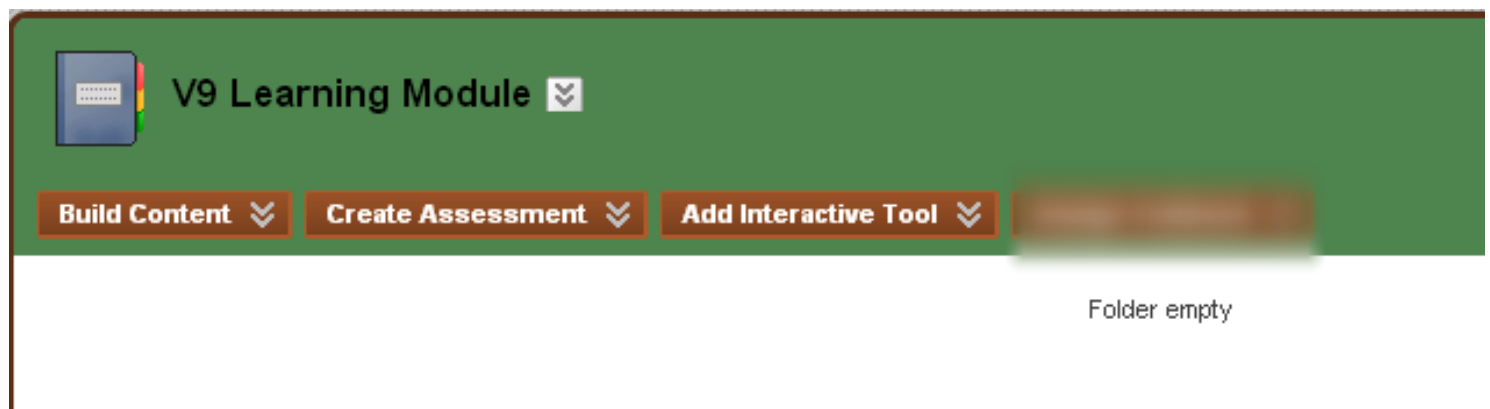

This lesson is to follow the lesson on creating a Learning Module.

Enable Edit Mode

First make sure that **Edit Mode** is **ON**.

Add Content

Using the menus at the top, select an item (Content/Assessment or Tool) to add to the Learning Module. The process for adding items is exactly the same as adding an item to a content area.

Instructor View of Learning Module and Table of Contents after content items added

Table of Contents

- A. Learning document
- B. Web Search
- C. Learning picture

V9 Learning Module

Build Content **Create Assessment** **Add Interactive Tool**
